- 1 The bonuses may not be available for existing or previous Capital One Business card holders.
- 2 Your Spark Cash Plus card account must be open and in good standing at the time of rewards redemption. Your cash rewards are yours for the life of the account—they won't expire. But if your account is closed, you may lose any rewards you have not redeemed.
- 3 Rewards and benefits may vary between Capital One Travel and Capital One Business Travel. [See website for more details.](#)

- 4 Pay at least the minimum payment amount by your payment due date, otherwise you'll be charged a 2.99% late fee.
- 5 No preset spending limit does not mean unlimited spending. The amount you can spend can change over time based on your spending behavior, payment history, credit profile and other factors.
- 6 You will receive a statement credit of \$150 each year when you spend at least \$150,000 in net purchases by your membership anniversary date. You will see the statement credit within 2 billing cycles following your rewards membership anniversary date. Please note that statement credits lower your balance but do not count as payments. You must continue to make any required payments.
- 7 The actual amount of cash back you earn will depend on your purchase activity.
